

Groovy McSnuffles
Project Manager
California State Coastal Conservancy
1330 Broadway, 13th floor
Oakland, CA 94612

March 19, 2015

Dear Mr. McSnuffles:

This letter is to document match provided by the County of Never Never Land to the State Coastal Conservancy's Magic MegaMarsh Protection Project under the National Coastal Wetlands Conservation Program. In support of the project, County staff provided ice cream sundaes for everyone who wanted them. Between 2012 and 2015, County staff spent approximately 100 hours over the course of the project scooping ice cream. At a loaded rate of \$47.44/hr, City staff time is valued at approximately \$4,700 total. The County affirms that this staff time counts as match for the Coastal Conservancy's NCWC project, and has not been used to match any other federal grants.

We thank you for your support of this important effort, which has protected valuable estuarine and freshwater wetlands.

Sincerely,
